other previously surveyed corner or marked by a licensed surveyor at the owner's expense

Prior to the placement or construction of a structure more than ten (10) feet but less than thirty (30) feet from the minimum required setback, the boundary line from which the setback must be measured must be visible from previously surveyed corner to the other previously surveyed corner, or verifiable by the Department by use of a corrected compass from a known corner within 500 feet of the proposed site of the structure, or must be rked by a licensed surveyor at the owner's expense.

(9) Stake or Mark Proposed Location(s) of New Construction, Septic Tank (ST), Drain field (DF), Holding Tank (HT), Privy (P), and Well (W).

NOTICE(s):

All Land Use Permits Expire One (1) Year from the Date of Issuance if Construction or Use has not begun. For the Construction of New One & Two Family Dwelling: ALL Municipalities Are Required To Enforce The Uniform Dwelling Code.

The local Town, Village, City, State or Federal agencies may also require permits.

If subject property is part of a Condominium Plat, applicant hereby certifies and represents that applicant has all necessary approvals and recorded documents required to complete the project for which this permit is sought including requirements set forth in Wisconsin statutes pertaining to condominium associations, the Declaration of the Condominium Association in which the property is located, and all other rules, regulations and requirements pertaining to that Condominium Association.

You are responsible for complying with state and federal laws concerning construction near or on wetlands, lakes, and streams. Wetlands that are not associated with open water can be difficult to identify. Failure to comply may result in removal or modification of construction that violates the law or other penalties or costs. For more information, visit the department of natural resources wetlands identification web page or contact a department of natural resources service center (715) 685-2900.

Dow

Construction plan Halaas Shoreline

Contractor will notify and have any/all utilities marked prior to the start of the project.

Access to the bank of the Shoreline will be continued from the driveway utilizing the open area of the site. Little clearing is needed to access the bank.

All Heavy equipment used within the construction site shall be well maintained and checked on a daily basis.

Erosion control measures will be placed in accordance with guidelines/regulations.

CONSTRUCTION:

All excavation will be completed with necessary erosion control measures to prevent excessive soil loss from the construction site. Excess excavated materials shall not be placed in floodplain or wetland areas. Soil disposal area will be seeded and mulched upon completion of the project.

DOT HR filter fabric will be curled "Dutch toe" into rock placement.

DOT Heavy riprap will be placed.
